Holders of red or brown, balcons tickets, are urged to go directly to the Gilmer street entrance. Some little difficulty was caused Monday night by the failure of patrons to understand this arrangement, but it is hoped that this will be obvi-ated for future performances.

"At present we are receiving a
large number of cases each day,
and none of our investigations is

case, we, of course, make immediate inquiries," he asserted.

It is impossible for the federal

Dorsey or a federal judge informs
United States officials that the situation is beyond control of the

"The federal grand jury of this district would have returned indictments against the three Williams' boys at its session Monday but the district attorney took the position that the cases should be handled by John W. Bennett, attorney for the southern district, as his court has the greatest jurisdiction and could return stronger indictments," he continued.

Dr. C. B. Wilmer, prominent Atlanta minister and a member of the inter-racial committee, when told of the state official's declaration that the situation was beyond the control of Georgia authorities, took the position that the citizens should be fully informed of the real conditions and then, if the violations were not checked, the aid of the federal government should be invoked.

"I do not believe in requesting the federal government to come into Georgia and take charge of the situation until our people have been given an opportunity to stop the violations." he said. "In my opinion, Georgians have not been fully informed on the extent of peonage and cruel treatment of the negroes, but when they are, they will see that the law is strictly enforced and the violations ended."

"The time has not come for the federal government to take complete control of the situation." said Dr. M. Ashby Jones, pastor of the Ponce de Leon Avenue Baptist church, and another member of the inter-racial committee.

"I believe that if the legislature will not remove from our statute books the act of 1903, which makes peonage possible, that if we can not create a public sentiment which will produce juries that will convict in cases of lynching and the situation is beyond our control, then I would favor government assistance.

Washington, April 25.—A bill prohibiting doctors from prescribing beer as a medicine was introduced today by Chairman Volstead, of the house judiciary committee.

The measure, designed to tighten up the Volstead law in view of an opinion by former Attorney-General Palmer, would not prohibit use of wine as a medicine, but re-enact in more specific language the injunction that such prescription must be limited to actual needs for medicinal use.

Another provision would direct the prohibition commissioner to hold down the importation and manufacture of liquor to actual requirements of the people for non-beverages use and permit the limportation and manufacture to supply current needs after the present liquor supply in the United States has been exhausted.

SAYS MAN ACCUSED
OF KILLING FATHER

Somerville, N. J., April 25.—Reiterating his denial of having caused the death of his father in Orlando, Fla., for which he is being held on a charge of murder, John R. Bryant declared tonight that he and his father had parted as friends. The body of Bryant's father was found a few days ago buried in a lonely spot, with the body of a pet dog beside him.

Bryant said that he last saw his father the night before he was to leave his father's farm with his wife and child. His father took him for an automobile ride and bade them goodbye that night, as he expected to make an early trip from home the next morning and did not expect to see them before they left. Bryant declared he heard his father moving around the house early in the morning and then drive away in a wagon. That was the last heard of him, he said.

With his wife and child, Bryant was arrested after having been found penniless and hungry near New Brunswick. County officials

Jacobs Not Indicted.

When the hearing was opened Mr. Clay announced that previously he had made the statement that Jake Jacobs. Decatur street merchant, had been indicted on charges of receiving stolen property. The statement, he said, was erroneous and he wished to make correction. and he wished to make correction.

I. O. Sturdivant, city detective for ten years, was first called by Judge Hines. He testified that he worked on the Ed Mills killing and sat by the coroner during the inquest, advising him on the nature of the evidence. During the inquest Abe Holzman was in the police station charged with suspicion in connection with the killing. He, Campbell, and Shaw questioned him at length on the slaying, but found that he knew nothing of the affair; that Holzman produced theater coupons to show that he had been at the Lyric at the time.

He had reported this to Coroner Donehoo, who said that, as Woodward had admitted the killing, there was no necessity of holding Holzman further.

Sturdivant then detailed the work he had done in the case. Judge Hines' intentions evidently being to prove that the detectives had worked intelligently and tirelessly on the case.

He showed that the indictment against Woodward was returned more than a year after the killing.

Judge Hines then directed fits questions to prove by Sturdivant that there are too few detectives to handle the crime of Atlanta. He declared that fully half the time of the detectives is used in investigating reports of cases made by the uniformed police.

Judge Hines then asked the detectives about the famous "chicken house." Sturdivant testified that the place was patronized by ladies who worked in the neighborhood and took their meals there. He had never seen anything to indicate that liquor was sold there. He was asked to tell what food was served there and gave a delectable list of cornestibles.

Advising the setting aside of the rent of the Western and Atlantic railroad and authorizing the drawing of warrants against it, making these receivable for taxes due the state and available as bank reserves, Secretary of State S. Guyt McLendon has written Governor-elect Thomas W. Hardwick a letter, taking the position that this move will solve the financial problems of Georgia.

"It's admitted, I believe, that the state cannot raise revenue by the sale of bonds, nor by making a temporary loan, nor by exacting more taxes from its clitzens," reads the letter. "It is admitted that the state is far behind with its schools and in meeting its obligations to its confederate veterans. In this situation, as I have previously expressed to you, it is my opinion that a possible, and the only way of relief, at the present time, can be found in utilizing our fixed income from the W. & A. railroad, which as \$540,000 per year. This rent is not property, within the meaning of the constitution of 1877, proceeds of which must be applied to the state, and has not been set apart or used for bond redemption purposes at any time since the adoption of the constitution. If it had been so applied it would long since have paid the bonded debt.

These warrants would only provide, in the absence of ready money in the treasury, a convenient means of discharging a debt contracted by the legislature in passing the appropriation bill.

"That such issuance and use of treasury warrants, would in no way conflict with the constitution of the United States, is shown by the line of decisions by state supreme court," the letter reads. A number of decisions was cited here.

"I accèpt these opinions, as establishing the proposition, that in this present situation the legislature of Georgia at its coming session can provide a method by which the state's school superintendent can draw warrants on the treasurer to meet school appropriations and the pension commissioner can

Negro Testifies.

The first witness to take the stand was Joe Martin, a negro, who testined that he went to the home of J. B. Bettison to get someone to cawry Roland to Camilla for protection. Roland stated, he said, he had shot Jason Harrell, and he was in fear of mob violence.

Boutwell is said to be a prosperous farmer, with a large family. He is a brother-in-law of Jason Harrell, who was shot and wounded in a pistol duel with Roland, which brought about the lynching.

Hearing of evidence was halted shortly after the negro took the stand by a legal battle upon the admission of testimony. The court adjourned at 6 o'clock.

### OPERA PREMIERE ALWAYS BRILLIANT.

The first night has always a re splendance that seems the climax of opera history, but last night, with an opera that everybody liked, and with new stars that made good at once, as well as familiar favorites welcomed with acclaim, there was a special musical satisfaction, while the vogue for bright color in women's dress, which is permissible as it has not been for years, and with the continued fashion of jeweled garnitures, there was a dash, a scintillance in the outward showing of things that was exceptional, even for a first night.

The custom of eleven years of opera; the assurance that comes with the opera habit, too, made the atmosphere of the evening one of confidence, rather than excitement, although there was no lack of intensity in enjoyment and expres-

of Rhadames for Friday night, was substituted at the last minute, however, and gave an interpretation of the part of the poet-revolutionist which proved highly satisfactory, and gained for Mr. Crimi an enthusiastic reception.

The management of the Metropolitian announced after the performance that it is expected that Mr. Gigli will have recovered from his indisposition in time to sing the part of Mefistofele on Wednesday night, as originally planned.

The composer, Umperto Giordano, whose "Madame Sans-Gene," presented here several years ago, was not of a quality to give his audience of last night any inkling of the somuch superior standard of "Chenier, had been fortunate, in the first place, in the libretto he was furnished by Luigi Illica. It is a story with a real plot, its leading figure properly heroic—a socialist, but the harshness of that suggestion tempered by the soul of the poet—a revolutionist in the days of the Terror in Paris, whose efforts for moderation finally carry him to the guillotine. with melody, and much of the pictorial, both in score and scenes, are elements in the Giordano opera, "Andrea Chenier," which made it a highly popular selection as the opening event last night of the Metropolitan Opera Company's eleventh spring season in Atlanta.

Added to the very general delight that the opera itself afforded, there was the keen curiosity, soon followed up by enthusiastic pleasure, in the debut appearance of two new stars—Giulio Crimi, tenor, in the title role, and Guiseppe Danise, barktone, who had a big enough part and the equipment for it, to run the tenor a close race for first honors of the evening.

The announcement by William J. Guard of the company just before the curtain rose that Benjamin Gigli was suffering from an affection of the throat and would be unable to sing, naturally caused keen disappointment for the time being, since the brilliant young tenor has made a sensation in this, his first season in New York, the fame of which had preceded him here.

The program of the Southeastern Shoe Retailers' association conven-tion, to be held in Atlanta June 7 ON DORSEY'S STAFF and S. has been announced, and in addition to business sessions twice each day, includes a banquet the first evening and many enjoyable features.

Unsettled business conditions throughout the south, and the nation as a whole, demand greater and closer co-operation of all trades, and the shoe retailers have called their convention for this reason.

"Many things must be achieved in a different way, new ideas and new methods developed by closer harmony and team work are essential," says W. S. Byck, chairman of the program and finance committee. "Never has there been a time when conventions were so imperative. We are expecting some 500 members from Georgia, Florida and South Carolina, two or three from every leading town."

Atlanta has been awarded the convention because of its accessibility to all parts of the southeast, and all shoe retailers are urged to attend. A special invitation is extended to wives of members. Mrs. Fred S. Stewart has arranged a special program for their entertainment.

The opposition to toll exemption is based on a variety of contentions. It is asserted that it would be a violation of the treaty and even if a new understanding with Great Britain were reached the with Great Britain were reached the exemption would be a subsidy to the one-fourth part of American tonnage using the canal as well as a discrimination in favor of seaboard producing and shipping interests against competing interests in the middle west which must depend on rail transportation.

Canada May Retaliate. Canada May Retallate.

It is contended that a new understanding with Great Britain can be reached only by making concessions valuable to England, and which will be tantamount to yielding in matters of vital consequence to the whole nation in order to procure a privilege of benefit to a fraction of American shipping and the seaboard interests.

G. O. P. Campaign Plank.

The republican national platform last year for the first time declared for toil exemption for all American ships, but Senator Borah thinks in view of the opposition, it will be easier to put through a bill applying to coastwise ships only. Free tolls were indorsed in the democratic platform of 1912, but repudlated in 1914 by President Wilson.

President Harding fewer toll available almost users. In 1914 by President Wilson.

President Harding favor toll exemption, but has indicated that it should be achieved through a new understanding with Great Britain. Whether he will hold the proposed legislation pending negotiations with England or endeavor to adjust afterward any differences arising with Great Britain or other nations from the exemption remains to be seen.

Forgets Embarrassment.
The reporter in question—which doesn't necessarily mean he's a questionable character—forgot his embarrassment when he reached the Georgian Terrace. If opera stars are temperamental, I'm a fool about temperament. The whole galaxy was there, sunning itself, on the Terrace 's terrace. The photographers were running wild, and the stars were standing firm, smiling in voices from basso profundo to falsetto tenor.

Gigli, he of the ready smile, held short confabs with the entire gang, then repaired to his suite to rest up for his appearance at night. Charles Hackett, distinctively American, held lengthy confabs with all, and was the first of the crew to accede to Oscar Davis' plea for greater Tech. Hackett started the ball a-rolling, and the rest of the crew chipped in.

Monday was evidently tenor day at the Terrace. And while we're speaking of tenors, you can't find a tenor, or a plumber or anybody else so instantly companionable as Giulio Crimi—pronounce it like you were referring to unskimmed milk, he's the pinch-hitter of the company, not only able, but willing to fill in a tenor role at a moment's notice. His repertoire is apparently boundless, according to Billy Guard. He goes to Buenos Aires from here.

Edward Ziegler, the personal representative and practically everything else of Mr. Gatti-Cassazza, sat and talked to Morgan Kingston. Yes, Kingston is a tenor, why do you ask? The day would be slighted if there wasn't some reference to Kingston's brown derby. I've seen a lot of brown derbles, but his is absolutely the sublimest brown derby ever created. He's absolutely the only man, get that now, the only man who ever wore a brown derby and got away with it. It looks like a real piece of wearing apparel. That's not surprising, though, for even a newspaper reporter could wear a brown derby, if he was as big and handsome and English as Morgan Kingston.

### OWNERS TO SHARE PROFITS BY NEW MINE PEACE PLAN

London, April 25.—Delegates to the miners and mine owners' con-ference, which is now progressing smoothly, appeared optimistic Mon-day night, although members of the miners' delegation informed The Inited News that a temporary post-conement of the parley was necesto submit detailed figures of their scheme to end the struggle.

It was officially announced that the new terms propose a standard wage which shall not be reduced, and that the owners and miners shall each share in surplus profits.

The government is asked to assist in the payment of wages during a period ending July 31 after which wages shall depend upon the ability of the Industry to pay.

The conference adjourned until Tuesday. Tuesday.

Sandersville, Ga., April 25.—(Special.)—In connection with the rob-bery of Irwin Arnold, cashler of the Merchants and Farmers' Bank sof bery of Irwin Arnold, cashler of the Merchants and Farmers' Bank of Davishoro, early Saturday night, Bud Brown and Joe Smith both of Davishoro, Ga., were failed here Monday by Sheriff Ben English and deputies.

Capture of the men followed a chase which led the searchers through swamps in the vicinity through Saturday night and Sunday. Some hours after the search began Saturday night, two members of the posse were forced at the points of pistols in the hands of two men to turn back.

While leaving a store in the vicinity of the bank, to which he had started with a bag of money he intended to deposit for some merchants, Arnold was struck over the head by one of two men. The other seized the money, and both fled. Arnold regained his senses before the bandits were out of sight, and fired after them with a pistol.

The men were caught early Monday, while in an automobile driven by a negro along a road in Jefferson county. Smith had \$90 in his possession, the sheriff states, while Brown and \$50.

## COMPLAINS ON ROADS ODD FELLOWS TO HOLD

Washington, April 25.—The Savannah cotton exchange complained to the interstate commerce commission today that railroads in North and South Carolina do not publish and maintain through rates on cotton and cotton linters from points in those states moving to eastern and Canadian cities through Savannah. An investigation with a view to remedying alleged discrimination as a result was asked.

Providence. April 25.—Textile mills in Rhode Island were operating at \$0 per cent of normal Monday, according to leading manufacturers. This is an increase in operation of 5 per cent over the week before last.

Orders that will keep the Pawtucket Hosiery company busy for nearly six months are reported, and the concern is now on full time and planning a large addition at its plant in Central Falls.

The Centreville woolen mills began operations on the basis of a five-day week, and both the mills in Centreville and in Washington will run on a more regular basis than at any time in the past year. The Sayles mills and the Glenlyon dye works at Saylesville resumed Monday with a full pay roll.

Work on the completion of the new Royal mill at Riverpoint is being rushed, and it is understood that about 1,000 operatives will be employed when it opens. Other mills in the Paytucket valley have resumed work with increased complements of workers.

Take It In Time

Do you know that by tar the larger number of the common ailments of women are not surgical ones; that is they are not caused by any serious displacement, tumor, growth, or other marked change?

Do you know that these common ailments produce symptoms that are very much like those caused by the more serious surgical conditions?

Do you know that many women and young girls suffer needlessly from such ailments? More than that, they endanger their health by allowing their ailments to continue and develop into something serious.

If treated early, that is, within a reasonable time after the first warning symptoms appear, serious conditions may often be averted. Therefore, at the first appearance of such symptoms as periodic pains, irregularities, irritability and nervousness, Lydia E. Pinkham's Vegetable Compound should be taken. It is prepared with accuracy and cleanliness from medicinal plants. It contains no narcotics nor poisonous drugs, and can be taken with perfect safety.

The Vegetable Compound acts on the conditions which bring about these symptoms in a gentle and efficient manner. The persistent use of it shows itself in the disappearance, one after another, of the disagreeable symptoms. In a word. Lydia E. Pinkham's Vegetable Compound acts as a natural restora. tive, relieving the present distress and preventing more serious trouble.

I suspect that in some instance the child labor law is violated. I suspect that in some instances the 60-hour law per week is violated. It would be passing strange indeed if there were no violations of these laws, as every other law on the statute book is violated daily. I lay down the proposition, however, that the child labor law and other labor laws of the state are violated less often than any other law on the Georgia statute book.

In Georgia there is a law which provides that 60 hours per week shall be the maximum hours observed by textile workers: "provided, that nothing herein contained shall be construed to prevent any of the aforesaid employees from working such time as may be necessary to make up lost time, not to exceed ten days, caused by accident or other unavoidable circumstances." The law provides that the hours worked per day shall not exceed ten, or "the same may be regulated by employers so that the number of hours shall not aggregate exceeding 60 hours per week," except as to the matter of making up lost time as mentioned above. Under this section employers can arrange their hours to twelve per day for four days. The only limitation with reference to the above sentence is that children under 14½ years cannot be worked legally after 7 clock-p, m. and before 6 o'clock a. m. Under the law, however, children can work thirteen hours per day, less the time allowed for dinner, so long as the aggregate deceed to hours, or in the matter of making up lost time as has been mentioned. The fact, therefore, that a mill may work more than twelve hours per day is not conclusive that such mill was violating the law.

Conditions Satisfactory.

is not conclusive that such mill was violating the law.

Conditions Satisfactory.

As to the mills in Columbus, they were inspected by W. A. Boy, chief clerk in this department, in January of this year, and his report showed conditions to be satisfactory. Previous inspections made by Mr. Griffin and myself found conditions to be not in violation of the law. It is manifestly impossible to inspect the mills of the state oftener than twice a year with the force we have available and the amount of money with which to pay traveling expenses. I asked the legislature to permit me to employ two inspectors, but the bill was amended, allowing me only one. Other employees of the department have the right of inspection and frequently assist in this work. I do considerable work of this kind myself, and my assistant has made a number of inspection trips. Of course, it is manifestly impossible to check the employees into every mill in the morning and check them out at night.

When a mill wishes to make up lost time caused by accident or other unavoidable circumstances there is no law requiring a report to be made to this department. I sought several years ago to have passed a law requiring employers to report to this department when there was an intention to make up lost time. This bill failed of passage. There is no state law as far as I have been able to discover regarding sanitation and hygiene. I sought is honey passed such a mensure. On the floor of the senate I was attacked by a senator presumably favorable to labor because he later took the initiative in amending the child labor law. He characterized me as a carrand a dictator and stated that I was trying to run the manufacturing plants of the state. This bill Ikewise failed of passage. It is practically impossible for a textile mill in Georgia to violate the child labor law. He characterized me as a carrand a dictator and stated that I was trying to run the manufacturing plants of the state. This bill Ikewise failed of passage. Roberto Moranzoni, conducting, had in the Chenier score a work-worthy, serious consideration, and he put behind it the vigor and fire and finish to carry its full force and its beauty.

The scenic setting was not as spectacular as some of the Metropolitan's productions—the nature of the opera did not require it, but it was adequate, and there was pleasing detail of the performance in incidental dances by the ballet.

## Teeth You Love to Show

## Find out how millions get them

This offer is to women who desire to look their best. To men who find that tobacco stains, etc., make their teeth look dingy. To young folks who know what beauty lies in glistening teeth.

It is to all who have learned that old methods are wrong. And that, despite the tooth brush, teeth discolor and decay.

## Clouded by a film

Teeth are clouded by a dingy film. At first it is viscous-you can feel it. It clings to

teeth, gets between the teeth and stays. Old ways of brushing do not effectively combat it. Much of the film remains. Then night and day it may do ceaseless damage. Most tooth troubles are now traced to film, and those troubles have been constantly in-

creasing. It is the film-coats that discolor, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the

teeth to cause decay. Germs breed by millions in it. They, with

tartar, are the chief cause of pyorrhea. Also

### of other serious troubles, local and internal. Science combats it

Dental science, after long research, has found ways to combat film. Able authorities have amply proved them. Now leading dentists, here and abroad, advise their daily use.

These effective methods are embodied in

a dentifrice called Pepsodent. Thus one may twice a day apply them in a most delightful way. Millions already do this, and to them it has brought a new era in teeth cleaning.

## Three other effects

Modern authorities find that a tooth paste should also bring other effects. This to cope with the average diet, rich in starch and low in fruit acids.

So Pepsodent stimulates the salivary flow -Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva -put there by Nature to digest starch deposits that cling. It multiplies the alkalinity of the saliva - Nature's neutralizer of the acids which cause decay.

These are natural results, but modern diet often fails to bring them. This tooth paste brings them, at least twice a day.

## Note the white teeth

Note the glistening teeth you see. Ask how people get them. You will find, we think, that most of them are due to Pepso-

But this is more than a question of beauty. Those whiter teeth mean cleaner, safer teeth. To young and old they mean better tooth

It means more to children than adults. Young teeth are most easily attacked. Very few children escape. So dentists advise that Pepsodent be used from the time the first tooth appears.

## You'll quickly see

The Pepsodent results are very quickly apparent. Some are almost instant. A tenday test is usually convincing.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear

Watch the other good effects. The test will be a revelation. The book we send will explain each new effect. Then what is best for you and yours. Cut out the coupon so you won't forget.

Somehow Atlanta fans have the atlants confidence in the ability of Charlie Frank's teams to come from behind and kick the stuffing out of the opposition, and for a while yesterday it appeared that the locals would deliver with the sort of rally that routed the Bruins the other day after Herman Brokine's Mobilians had piled up a six run lead. No One On.

It was a cruel trick of fate that the Cracker's only long bingle came when the bases were unoccupied as an old maid's boudoir during an invasion of mice. Joe Guyon pasted one of Vance's slants to left field and when Bert Griffith fielded badly on the offering, the Indian reached third. The clout, however, was useless, as Joe was left stranded at that corner.

Dazzy's wildness kept him in deep water during the greater part of the struggle, but when it was necessary for him to come out of this difficulties, the old boy was necessary for him to come out of this difficulties, the old boy was there with bells on. The Crackers had nine base runners left on the paths, and remembering that Vance allowed but three hits, it isn't hard to see that the farmer Memphis moundsman was wilder than most Atlanta fans ever saw him.

## LEONARDO IV, FAVORITE, IS RACE WINNER

Lexington, Ky., April 25.—Leonardo II., the unbeaten 3-year-old pride of the Xalpa stable, hung up a new track record here on Monday when he negotiated a mile and a sixteenth in 1 minute and 42 and 4-5 seconds in the Mount Stirling purse, the fifth race of the day.

The colt was a hot favorite, being backed down to a 1- to-4 shed in the Parl Mutuels and his showing exceeded the expectations of his backers. Andy Shuttinger had the mount and he kept Leonardo II. in front from wire to wire, leading Jouet home by a safe margin. Show Money went to inquiry which romped in ahead of Balance Wheel, Bone Dry, War Prize and Kallipolis.

A large crowd witnessed Leonardo II.'s sterling performance and as a result of his showing the Xalpa thoroughbred is picked by many to win the Kentucky derby to be run at Churchill Downs.

Stock Traders Changing From Short to Long Side

New York, April 25.-Today's stock market showed a long list of industrial shares up from 2 to 4 points or more. Short covering was at the bottom of the continued advance in prices of industrials. However, traders are at last switching from the short to the long side of the market on the belief thant the turn has come. In this connection it was pointed out today in stock exchange circles that, despite all of the dividend reductions and other bad news of the past month and the aggressiveness of the bears, the average price of 25 industrials and 25 is now more than 5 points above the low price for the year made at 64.94 on March 12.

Rails did not join in today's upward price movment. The more active shares on the rise included Mexican Petroleum, Studebaker, Chalmers, Republic, Vanadium, Bethlehem, Crucible, Sears-Roebuck, Montgomery Ward, American Tobacco, Asphalt and American International Corporation. The fact that a stock was paying no dividend made no difference. The thing that counted was whether or not there was a short interest to be run to cover.

While of the belief that the market had turned for the better,

many cautious traders took profits today, expecting to buy again at

Comorrow the Steel corporation will publish its earnings for the March quarter. According to the reports heard today, net will be close to \$30,000,000, which will mean that the common dividend requirements of 1% per cent will just about be earned.

Bethlehem Steel expects to issue its March quarterly earnings late this week, probably Thursday. Because of favorable shippard earnings the company, unlike other independents, will show its dividends earned. high record for the year was made today for sterling. It is believed in banking circles that sterling will continue to advance as our exports fall off.

London cables received late today reported that the new budget for the coming fiscal year would provide \$160,000,000 for payment of interest on the debt of Great Britain to the United States. So far no interest has been paid on this debt.

Call money renewed and remained at 61/2 per cent today. Brokers made bids of 6½ per cent for time money.

Holders of oil shares welcomed the announcement made shortly after the opening of the stock market that Pennsylvania crude had been advanced 25 cents a barrel to \$3.50, and that price advances had also been made in various grades of other eastern oils. This price of \$3.50 for Pennsylvania compares with \$3.00, the low for the year, \$5.75 before the cuts started, \$6.10 the high for last year, and \$2.50 for 1913.

Shortly before the advances in oil prices were announced it was learned that 41 automobile companies had reported sales for the month of March for the new York territory of 3,304 cars against 1,568 for

February and only 571 for January.

Another encouraging piece of news came in the report of the American Railway association, showing that for the week ending April 15 the idle freight cars surplus for the country was down to 499,479, a decrease of 7,948 compared with the high record for all time reported the preceding week. This showing was due to a reduction of 9,284 in number of idle coal cars.

New York, April 25.—The market for coftee futures was lower today, owing to dispositing reports from Brazil and continued near-month liquidation. First prices sere 18 to 22 points below Saturday's closing figures, with May selling at 5.40, or rithin 30 points of the season's low record stabilished early last month. Rallies of 8 for 10 points from the lowest on covering were not fully maintained, owing to late reports of easier Brazilian markets, and, after selling up from 6.27 to 6.35. September closed at a net decline of 13 to 18 points. May, 5.43; July, 5.85; September, 6.20; October, 6.45; December, 6.79; January, 6.90; March, 7.10.

Spot coffee was reported in poor demand, with prices on the basis of 5% 625% for Rio 7s and 96.09% for Santos 4s. Cost and freight offers included Santos 4s at 96.90.5, American credits.

The official cables reported the Rio market unchanged, but an advance of 70 reis in the dollar buying rate while the decline of 1.16d reported in Rio exchange by the early cable was followed by a further decline of 4.6. The early cable quoted Santos futures unchanged to 25 reis higher, but later reports made the market unchanged to 125 reis higher, but later reports made the market unchanged to 125 reis higher, but later reports made the market unchanged to 125 reis higher, but later reports made the market unchanged to 125 reis higher, but later seports made the market unchanged to 125 reis higher, but later reports made the market unchanged to 125 reis higher, but later seports made the market unchanged to 125 reis higher, but later seports made the market unchanged to 125 reis higher, but later seports made the market unchanged to 125 reis higher, but later seports made the market unchanged to 125 reis higher, but later seports made the market unchanged to 125 reis higher, but later seports made the market unchanged to 125 reis higher, but

New Tork. April 25.—The local raw sugar market was quiet and while no business was reported, the undertone was easy, and uncontrolled sugars were still available at last prices, or 5.02 for centrifugal. There was no change by the committee, which quotes 4%c for Cubas, cost and freight, equal to 5.64 for centrifugal.

To conform to the lower ruling of the spot market, leading refiners reduced their quotations of refined sugar 20 to 25 points to the basis of 7@7.25 for fine granulated. The decline failed to inspire any increase in the demand and nothing new was heard in regard to any export business, rumors of which were heard at the close last week. Sugar futures were easy, particularly the May delivery, which showed declines of 11 points at one time under scattered liquidation. Other position were about a point lower, sithough there was a little rally in May near the close, with final prices 1 to 7 points lower for active positions. May closed at 3.89: July at 4.04: Sentember at 4.07, and December 3.97, all bid.

New York, April 25 .- Further vaadvance.

There is more activity in domestic goods markets as result of merchants buying more freely for immediate and future requirements and Manchester trade reports indicate increasing activity there, due to improvement in the demands from India.

As yet the weather in the interior remains generally unsatisfactory and indications are for the continuance of unsettled weather and lower temperatures.

11% to 1½c, and provisions 15 to 55 cents.

May delivery of wheat was especially affected by evidence that supplies southwest had become much easier to obtain. It was said that tenders of holdings had been free and that Kansas in particular gave indications of an increased movement this week. The trade practically ignored a forecast of freezing temperatures tonight in Kansas and Nebraska, and held to an opinion that the cold weather would fail to injure crops. A big decrease in the domestic visible supply total was of some temporary assistance to the bulls, but rallies which took place were soon more than offset by declines at Winnipeg notwithstanding that with one exception the domestic visible supply is the smallest in thirty years.

Corn and oats sympathized with the wheat decline, although it was estimated 500,000 bushels of corn

Against the strong driving and excellent putting of last week, Miss Stirling's wooden club work was off, and her iron shots somewhat uncertain, with the result that she finished sixth in the medalday match. Mrs. Temple Dobell won with a score of \$2, while Miss Stirling turned in an \$9. Mrs. Dobell played excellent golf, and Miss Stirling showed fairly good form for the first nine. After the ninth hole, however, the American champion began to get into trouble. Between getting into the rough and bunkers, she took sixies for the tenth, eleventh, fourteenth and seventeenth holes. On the eighteenth Miss Stirling had even more trouble with her wooden and iron shots and registered a tragic seven. This gave her a 47 for the second nine. Miss Cecil Leitch, the English champion, also had an off day, but managed to finish in fourth place, and with a score of 86. Miss Leitch had most of her trouble on

Would have brought around \$15,000 last spring, but I had no reason to sell. NOW that I am leaving Atlanta, I am going to give a price that will get quick results. In the event of a fairly good cash payment, say around \$3,000, I can give several years on the balance. \$1,000 per year, for instance, would be dead-easy, especially as I will require only 6 per cent interest.
